Computer Engineering student with experience in full-stack web development, API integration, and cloud applications. Built production web and mobile apps using React, Nextjs, TypeScript, and serverless backends.

EXPERIENCE

App Developer | Self-Employed | Memphis, TN

May 2025–Current

- Develop full-stack web applications using React, Next.js, and TypeScript.
- Integrate APIs, authentication, and cloud backends using Supabase and Firebase.
- Debug issues and optimize performance through refactoring and efficient state management.
- Deploy and maintain production apps using Git, CI/CD pipelines, and cloud hosting.
- Build cross-platform mobile apps with React Native and Expo.

Senior Coding Sensei & Camp Director | Code Ninjas | Collierville, TN

Jan 2022–Aug 2024

- Taught programming fundamentals in C#, JavaScript, Python, and C++ through project-based lessons.
- Managed daily center operations, supervising instructors and coordinating schedules.
- Prepared classrooms and systems for coding camps, including setup, student coordination, and closing procedures.
- Assisted parents and students with technical issues, questions, and program support.
- Guided student teams through coding projects and demonstrations.

CURRENT PROJECTS

- **Handled – Voice-to-SMS Automation Platform (In Development) (jaydenrice.dev/projects/handled)**
 - SaaS platform that converts missed business calls into automated SMS follow-ups to capture leads.
 - Built with Twilio Voice/Webhooks, Supabase, and React to detect missed calls and trigger automated workflows.
- **History.love – AI Relationship Journal App (On Hold) (jaydenrice.dev/projects/history-love)**
 - Cross-platform React Native app that helps couples record milestones and shared experiences.
 - Uses AI prompts to generate reflections and relationship insights.
- **Dynamic Service Business Conversion Website (Live) (demo.jaydenrice.dev/demo/crowe-heating-air-15vna4)**
 - High-performance website template for home service businesses that dynamically generates branded pages.
 - Includes AI logo generation and customizable themes to increase lead conversions.

EDUCATION

University of Tennessee at Martin | Pursuing Bachelor's Degree – Computer Engineering | *May 2028 / GPA: 3.52*

SKILLS

CI/CD	JavaScript Typescript	React
Supabase Firebase	C++	REST APIs
AWS, GCP, Azure	Python	Git
PostgreSQL SQL	C#	Next.js Node.js

CERTIFICATES

EJPT Junior Penetration Tester	INE Certified Cloud Associate	Certified in JavaScript Algorithms & Data Structures
Data Visualization Certification	Proficiency in Python Language	Machine Learning with Python
Front End Development Libraries	Scientific Computing with Python	CompTIA A+ (In Progress – Expected by May 2026)
